Microsoft Power BI
Introduction

📅 Duration: 1 day

👥 Ideal Group Size: 6-8 people

Course overview

Power BI enables you to connect to and transform data from a variety of sources. This allows you to produce detailed reports through a comprehensive range of visualisations.

This workshop will allow delegates to gain a thorough understanding of the complete Power BI cycle by working with real world examples and will equip you with the necessary skills to start applying your knowledge.

Topics covered

The fundamentals of Power BI

- An introduction to Power BI
- Working with Power BI desktop files
- Connecting to data sources with Power BI
- Creating a report with visualisations
- Doing more with visualisations

Working with data

- Connecting to file based data
- Connecting to service based data cloud
- Transforming and cleaning data
